Knowledge needs improvement / change: (The participants don't know "what" to do...) *	Yes
This course will help participants improve or change knowledge related to:	<p>Basic and specialty practices. Best practices are continuing to evolve and everyone who practices anesthesia needs to learn current standards and best practices.</p> <p>This is the most important aspect of anesthesiology grand rounds, one particularly suited to the lecture format used.</p>
Competence needs improvement / change: (The participants don't know "how" to do it...) *	Yes
This course will help participants improve or change competencies in the following ways: *	Reviewing new statements of best practices
Performance needs improvement / change: (The participants "just don't" do it, for some reason...) *	Yes
This course will help participants improve or change performance in the following ways:	<p>We occasionally provide feedback to the group on our performance and what we are not doing as well as we should, and discuss how we can/should improve. Feedback provided includes both efficiency data, e.g. first-case on-time start percentages compared to benchmarks, and quality data, percent of observed time-out reviews that meet standards.</p> <p>We also hold some case conferences where patient outcomes were an issue and discuss what we could do differently.</p>
Will the educational objectives reflect these desired changes? *	Yes

Is this activity designed to improve patient outcomes? *	Yes
If so, how? *	Reviewing cases where our performance was deficient and different actions could improve outcomes.
Check the needs documentation that you used in selecting these topics. Attach documentation as described. *	<ul style="list-style-type: none"> • other (provide a detailed description and attach)
Other:	Gaps in knowledge of anesthesiologists from incorrect answers on the certification exam of the American Board of Anesthesiology
