

A dentist wearing a white lab coat, a surgical mask, and blue gloves is performing a procedure on a patient lying in a dental chair. The background is a blurred dental office with various equipment and another person in the distance.

find your path

DentalAssociates

to real dentistry

We exist to empower and support you

so you can ***be more*** than a dentist,

and ***become a true practitioner***.

Practice within a practice

Our dedicated doctor teams and unique *practice within a practice* model ***ensures the highest level of care***. The members of your dental team are dedicated to you as a provider to ensure consistency and efficiency within your practice. You and your team will collaborate with the other general dentists and specialists working within the same clinic.

Collaboration & mentorship

Work alongside an experienced dentist that will help you learn and ***hone your skills***. You will expand your knowledge by treatment planning with our in-house specialists.

Technology

We are ***dedicated to technology***, featuring digital scanning, 3D imaging and printing, digital impressions, and complete digital records. Our organization is totally paperless.

Leadership

Direct your team, your schedule, and patient care through scheduled morning huddles. Focus on providing the best care to your patients and receive the mentoring you need to ***grow and flourish*** as a successful dentist.

Growth potential

Learn. Grow. Develop. Blossom. We put you on the path to ***find your true passion***. We will provide the guidance and continuing education that enable you to flourish as a dentist.

Focused dentistry

Devote your energy to providing excellent oral care rather than running the business side of things. We provide all the back-end support you'll need so you can ***focus on your patients***. Don't worry about staffing, IT, finances or those pesky online reviews. We'll take care of those distractions.

Total compensation package

Our ***salary guarantee*** gives you stability while you get established. Not to mention, our robust patient base, full schedules, higher earning potential through the Doctor Incentive Program, full benefits package, vacation and 401k with vested match.

Local. Family. Culture.

We believe in people and personalities. We believe in being personable and approachable. Your support teams are local – not off in another state. We believe in being patient-focused and family-oriented. We're owned by a practicing periodontist – not an investment group.

Our ***Mission***

To improve our patients' quality of life through excellence in oral health care.

Our ***Values***

Do the right thing every time

Be accountable

Commit to quality

Keep learning

Pledge to safety

Embrace innovation

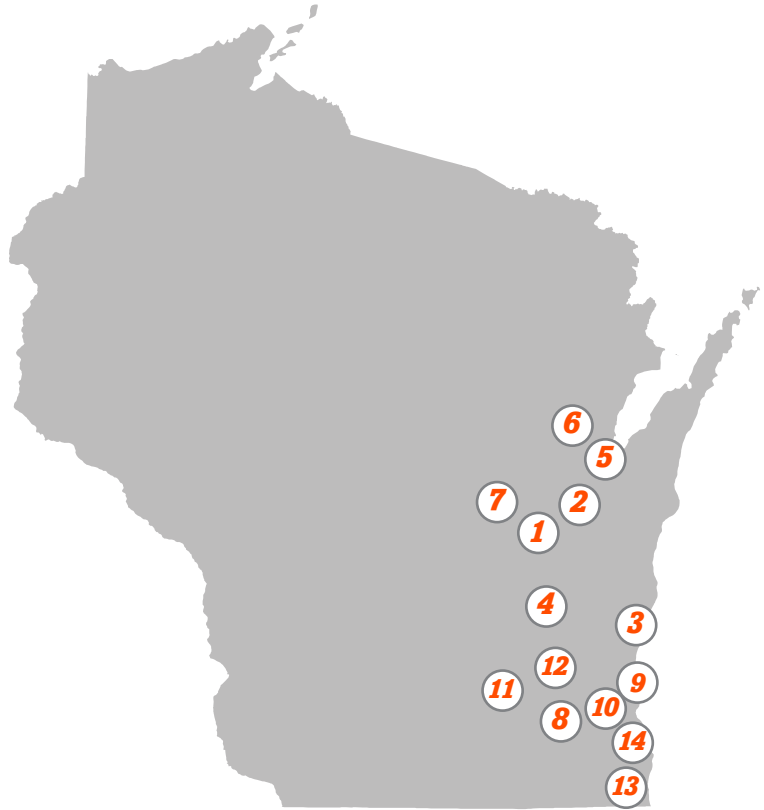

Lead by example

Dentist-led

Thomas G. Manos, D.D.S., M.S. Owner, Dental Associates

Dr. Manos brings a contemporary outlook to Dental Associates. He believes that group dental practices provide the highest quality dentistry because of the comprehensive care they provide patients. He is honored to offer talented professionals an atmosphere where their sole responsibility is to be the best dentists they can be.

The family-oriented owner understands the importance of building rapport between a doctor and patient. That's why he championed the concept of "team dentistry" in which a group consisting of a dentist, assistant/hygienist and patient care coordinator support each other and nurture relationships with every patient.

He believes that education should never end with a degree. Therefore, he encourages all employees to take advantage of Dental Associates' continuing education program to remain at the forefront of the latest techniques and innovations in dentistry.

Dr. Manos has always had a strong connection to Dental Associates. He began his career at our Wauwatosa location in the 1980s and took the values and knowledge he learned there to Chicago where he established two multi-specialty dental surgery facilities. This wisdom, along with his expertise in specialized dental care, gives Dr. Manos his drive to grow Dental Associates to be the highest quality group dental practice in the nation.

Founded-1973

We believe in being *more than a dentist*

Dental Associates is proud to serve thousands of families in Eastern Wisconsin. From infants to seniors, our dentists and dental specialists are able to provide the most complete care in the state! It seems only fitting that we're able to serve patients of all ages; family is in our history, and families are our #1 priority.

Our very first clinic opened in 1974 on South 16th Street in Milwaukee. Starting as a 1-chair clinic with just a few employees, we've now grown to over a dozen clinics with over 800 dedicated team members! We set our roots in Wisconsin, and ever since we've been dedicated to serving the families who live in this great state.

We believe that team dentistry builds the best relationships and delivers the best results for patients. We've always been owned by a dentist — not a corporation. Though we're the largest group dental practice in the state, what sets us apart is our ownership. When our founder and first owner Dr. John Gonis passed away in 2008, his nephew Dr. Thomas Manos took over and our clinics remained in the hands of the family and a dentist. We strongly believe we offer the most complete, coordinated, family-centered care since our owner is a practicing dentist and devoted father and husband.
