For more information on this course, contact Carrie Trejo at ctrejo@hsc.wvu.edu or (304) 293-3222.

For any questions on how to register for the course, contact the Office of CE at (304) 293-3937.

COURSE CREDIT:

The WVU School of Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. The WVU School of Dentistry designates this activity for 6 continuing education credits. Participants are cautioned about the potential risk of using limited knowledge when incorporating new techniques and procedures into their practices. Concerns or complaints about a CE provider may be directed to the provider or the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

REGISTRATION MADE EASY:

Be sure to fill out all applicable information on the registration form. Please make additional copies for each individual registration.

Please submit your online registration and credit card or electronic check payment at <http://bit.ly/WVUTADs>, or complete the attached registration form and return by August 31, 2017 to the WVU Office of CE along with your check payment. Registrations received by August 31, 2017, will be confirmed via email.

COURSE DESCRIPTION:

In this highly dynamic lecture Dr. Baumgaertel will share his evidence based principles and clinical techniques that have stood the test of time and really work. You will learn the various factors that can impact your treatment success and when controlled, will make the difference between success and failure.

Topics to be discussed will include:

- The best sites to place an orthodontic mini-implant
- How to best place the implant at the selected site
- The keys to maximizing clinical success rates
- How loading the mini-implant correctly can make all the difference
- How to implement TADs into your daily practice
- Simple and efficient biomechanics
- How to use mini-implants in different clinical situations (case presentations)

This program is designed to meet the needs of the practicing orthodontist and staff.

OBJECTIVES: Following this course, participants should:

- Identify the best site to place a mini-implant
- Recognize how to best place the implant at the selected site
- Identify the keys to maximizing clinical success rates
- Implement TADs into their daily practice.

DISCLOSURE: All those in a position to control content have indicated that they have no relevant interests to disclose.
