Dr. James E. & Joan B. Overberger Endowed Lecture Presents: Creativity with the New Ceramics

David Hornbrook, DDS, FAACD, FASDA, a gifted clinician and product researcher turned mentor, guides meeting participants to the realization that they, too, possess the ability to practice aesthetic dentistry at the very highest level. He is one of dentistry's most famous faces and one of the pioneers of live-patient, hands-on clinical education, as the founder and past director of LVI, Pac-live and the Hornbrook Group. He has been a guest faculty member of the post-graduate programs in Cosmetic Dentistry at Baylor, Tufts, SUNY at Buffalo, UMKC, and the UCLA Center of Cosmetic Dentistry, and is currently the Director of Education and Technology with Utah Valley Dental Lab.

Dr. Hornbrook lectures internationally on all facets of aesthetic and restorative dentistry and has published articles in all of the leading dental journals. A prolific researcher and materials enthusiast, he consults with numerous manufacturers on product development and refinement. Dr. Hornbrook's warm and engaging style earns him the highest possible marks from participants and meeting sponsors.

COURSE DESCRIPTION

Today's ceramic systems are no longer limited by strength, marginal integrity, or necessary destruction of tooth structure. The creative, artistic and astute clinician now has the opportunity to master restorative dentistry like at no other time in the history of our profession. Join Dr. Hornbrook as he discusses the new ceramic systems available and why the elimination of metal in our practices is a more viable option than ever before, and one that should be adamantly pursued by every practicing clinician. The most expensive thing you provide from your lab for your patients is a metal base restoration. The new metal-free systems are more durable, more aesthetic, more bondable more conservative and have better wear compatibility than metal restorations. Dentistry has always been in search of a replacement for metal-supported dentistry and the time is now to start exploring the options. This presentation will cover what's available, when to use what, how to optimize predictability, effective lab communication, reducing remakes, and a thorough understanding of the cementation systems that will optimize results.

TARGET AUDIENCE

This course is recommended for the entire dental team.

COURSE OBJECTIVES

Following this lecture-based course, participants should be able to:

- Select the right ceramics for every restoration- "When do I use what?"
- Compare current dentinal adhesive systems and their uses
- Use preparation design techniques to maximize long term success.

REGISTRATION

Please submit your online registration and credit card or electronic check payment at ce.wvu.edu, or complete the attached registration form and return by September 15, 2017, to the WVU Office of CE along with your check payment. Registrations received by September 15, 2017, will be confirmed via email.

10:15 am	Session I continued
12:00 pm	Lunch
1:00 pm	Session II
2:30 pm	Break/Exhibits
2:45 pm	Session II continued
4:30 pm	Adjourn

CREDIT

The WVU School of Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The WVU School of Dentistry designates this activity for 6.5 continuing education credits.

Participants are cautioned about the potential risk of using limited knowledge when incorporating new techniques and procedures into their practices.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

ADDITIONAL INFORMATION/CANCELLATIONS

For more information on this and other upcoming CE conferences, contact the Office of CE at 304-293-3937, visit our web site at www.ce.wvu.edu or e-mail us at ce@wvu.edu. Important: If you are unable to attend the conference after you have registered, you must notify us by September 15 to receive a refund. No refunds for conference fees will be made after September 15. A \$50 fee will be charged for all cancelled registrations.

DISCLOSURE
